EDUCATIONAL QUALIFICATIONS

Qualification	Year	Name of the Institution	Marks
PH.D Economics	2022-26	Indira Gandhi Institute of Development Research	Pursuing
M.Sc Physics (H)	2019-21	Jawaharlal Nehru University	6.5/9
B.Sc Physics (H)	2016-19	Banaras Hindu University	8.4/10
UPMSP (Class XII)	2015-16	Govt. City Inter College, Ghazipur, UP	91.4%
UPMSP (Class X)	2013-14	K.D Higher Secondary School, Azamgarh, UP	90.6%

- Ranked among the **top 1%** in the **State Board's** Matriculan and Higher Secondary Examinations.
- Awarded the 'Innovation in Science Pursuit for Inspired Research' (**INSPIRE**) **Scholarship** by the DST, **Govt. of India**. (Scholarship amount - **Rs. 4,00,000**).
- 2 times facilitated with Laptops by the Govt. Of Uttar Pradesh for excellent performances in class Xth and class XIIth.
- Secured **Perfect Scores (10/10) in 5 out of 8 Mathematics Courses** during Graduation: Statics and Dynamics, Geometry, Differential Equations, Partial Differential Equations and Mathematical Methods.
- Tutored 100+ students (Science and Mathematics) for Xth and XIIth boards examination.

Key Competencies: Report Writing, Data Analysis and Presentation, Forecasting & Modelling.

Technical Skills: STATA, Programming Language: Python, MS Excel, Latex.

Courses: Development Economics, Applied Econometrics, Empirical Research in Energy and Environment, Python for Economists, Contemporary Issues in Human Development and Policy.

ACADEMIC PROJECTS

Lives in Transition: Exploring Livelihoods and Service Access in Aarey Colony

Guide- Prof. Srijit Mishra

Analyzed the impact of infrastructure access on capability deprivation, with a focus on Sen's idea of freedom and bodily health and autonomy.

- Conducted **qualitative field research** in Aarey Colony in Mumbai by **12 in-depth interviews** to assess residents' living conditions, occupations, and access to essential services (water, electricity, cooking fuel).
- **Designed** and administered **surveys** to collect socio-economic data from local residents focusing on **vulnerable groups** such as tribal families and seasonal migrant workers.
- Analyzed field, supporting evidence-based reporting on **urban livelihoods** and **infrastructural** challenges using **Sen's** capabilities and **Nussbaum's** human development approach.
- Led the preparation of a **flowchart-based framework** linking climate vulnerability, inequality, and infrastructure access, now included in the final presentation and used for public engagement.
- Created a **presentation** summarizing policy implications for inclusive urban planning, **showcased during the seminar series** at IGIDR.

Effects of Electricity Supply Quality on Income in Rural India

Guide - Dr. Disha Gupta

- Replicated and extended Chakravorty et al. (2014) using IHDS 2005 & 2011 data to measure the causal impact of electricity quality on household income.
- Implemented household and **district-time fixed effects** and used an **IV strategy** to control for endogeneity.
- Found that a one-hour increase in daily electricity supply leads to a 1.8% to 2.4% rise in per adult income, underscoring the role of electricity quality in rural development.

Review Paper: Rural Energy Consumption in India – Patterns, Policies, and Gaps

Guide: Prof. Srijit Mishra

Assessed India's progress under Saubhagya and Ujjwala schemes and evaluated the gap between electrification and actual energy usage.

- Synthesized findings from **NSSO, CEA, and IEA** reports on rural energy access.
- Differentiated income poverty and energy poverty, emphasizing multi-dimensional access issues in rural energy transitions.

CO2 Emissions and Environmental Kuznets Curves for India, China, Japan, USA, and Germany

Guide- Prof. S Chandrashekhar

- Collated, organised and reviewed relevant knowledge documents and databases using **Python API framework**.
- Prepared and presented the summary of findings using descriptive statistics.

Female Workforce Trends in India: Insights from Six Comprehensive Tables using PLFS Data.

Guide- Prof. S Chandrashekhar

- It involved systematic process of data organization, merging, variable transformation, and subsequent analysis using the large scale household Periodic Labour Force Survey (PLFS) dataset for years 2017 to 2022.

R&D Expenditure and Climate Change: A Comparative Analysis of Developed and Developing Countries

Guide- Prof. Manisha Jain, IGIDR

- It involved exploratory analysis of GreenHouse Gases Emission and establishing a causal relation with R&D expenditure by using OLS.

Empirical analysis on impact of shocks to economic growth on the likelihood of a country experiencing a civil conflict (2022)

Guide- Prof. Bharti Nandwani, IGIDR

- Investigated how the impact changes with the level of ethnic fragmentation using data on economic growth rate and conflicts in Sub-Saharan African countries from 1981-99.
- Conducted a **controlled study** by assigning control variables while estimating the regression equation using **STATA**.

Experimental Study of Physio-Chemical Properties in Solid Solutions of Benzene and Furan

(2021)

Guide- Prof. SSN Murthy, JNU

- Designed a lab experiment using a Perkin Elmer Sapphire 'Differential Scanning Calorimetry' measurements
- Studied solid liquid phase diagram in benzene furan binary system

SOCIAL ENGAGEMENTS**Founding Team Member, Malvia Child Welfare Foundation**

(2017-19)

Initiated for uplifting the educational attainment of underprivileged children in Varanasi

- Superheaded a team of **15+ volunteers** to implement and ideate on various social initiatives taken by the Foundation.
- Tutored 70+ underprivileged children.
- **Collected information** through interviews and observations to evaluate physical and mental wellness among the children.
- Conducted **outreach** to nearby villages through *Bal Sansad* and electing '**Student Action Team**' for **community engagement**.
- Organise cultural programmes for **100+ students** by fun-filled educational activities.

Team Member, National Service Scheme, BHU

(2016-18)

- Contributed **120+ hours** and **one of the 6 selected** out of 50+ volunteers to be granted an 'A' grade certificate.
- Organised **3 medical camps**, witnessing a footfall of **100+** rural residents; **4 Blood donation camps**, witnessing a participation by **200+** donors; **2 cloth distribution drives** in winters to **200+** underprivileged people.
- Conducted **surveys** of **800+** rural residents to assess the provision of potable water for them and used the findings to inform the local authorities by data-backed policy approach.
